

KING OF THE ALPS

PHOTOS & TEXT BY JOHN HERMANN

Did you ever see such a fine bike? And the rider is none other than **Dieter-Heinz Kijora**, who's just licensed and who's just taken over the bike from our former President, **Dietrich Kijora**. Dieter-Heinz's first ride was to Sunday breakfast, and the second ride was all the way on Wildcat Canyon day to claim the youngest escort title. Pretty good, since some mature riders chose to skip Mesa Grande.

Not only that, but Dieter made it to Fat Ivors for ribs after Wildcat.

One of the tables munching on ribs included these fine diners, refilling themselves from the rigors of Palomar Mountain. From left, **Nanna Frye**, **Peggie Drobile**, **Rich Kapushinski**, **Ray Higgins**, **David Mishalof**, **David Shealey**, and in the foreground, new members **Deanna Lorenz** and **Scott Vye**.

Did anyone have more than ten ribs? **Sonja Kijora** said, "They are good!"

Oh! Now we're in trouble. **Todd Schoenburg** has added this nifty "S" to his garage (alongside the green Guzzi).

Stacy Silverwood, spotted on the Aprille Mille cruising up the coast to Laguna Seca for class. Then to California Motorspeedway at Fontana for more class.

Then **Scott Vye** here added this 1150R to his collection. He's been seen on a Ducati, and an RC 51. It just may be that he's the one to learn a few riding tips from. Check the tires and pegs on this bike.

Victor Siebold on the white Motosport says it does run smoother now he's in the new suit.

That budding lawyer, **Todd Stahly**, has just done a paper on mandatory helmet laws.

Pete Swanson made it to Mother's on Palomar on Wildcat Canyon Sunday, but he's definitely on his way to Cambria.

We know she does ride and ride. And **Heidi Weldon** is excited about her new tank bag, which she's showing. See, it can be all these parts, and zip together, and hold a lot, and be a backpack, too.

Richard usually represents high quality Italian wheels, and rides that K1200 you can see in the background. But he's going to try a CS 650 once **Blair Balsam** gets through pointing out all its features.

It's good to have **David Kuhnle** home from warmer and more dangerous climes. Meanwhile, we send best wishes to **David Turner**.

The warm climes sought out by **Dan Toporoski** were 'round Guatemala. Without a bike, he did check out the local BMW scene.

Our secretary, **Karen Clare** is really happy with her new 1150GS.

And **Gary Adler** likes his, too.

The ladies of the club decided to leave the men behind one Sunday. Here, **Nanna Frye**, left, is getting them together, with **Pat Wagner** and **Peggie Drobile**. Further back are **Karen Clare** and **Reva Randall**. They claim they had a lovely lunch, too.

The cover this month shows a group heading up the south side of Mesa Grande: **Tom Mooney** on the 1100GS, **Ira Grossman** on the K1200 RS, and **Bill Siebold** on the 1150GS.

And there they go...

Ken Matousek led one group on the Wildcat Canyon Sunday ride, and that group did not miss Mesa Grande.

Ramsey Stewart is watching carefully as **John Ciccone** tries out his Ducati Supersport 900. Ramsey allows as how he might be able to ride his GS for a longer time. Problem is, he decided to ride his mountain bike. **Don Nimon**, left, thinks he'll stick with his GS.

A pretty good day. The ladies' ride included **Reva Randall**, who's really ridden everywhere and done that.

Peggie Drobile is really happy with this BMW. But, wow, you should see her other one.

Cute? It's red, this Isetta, circa 1950 with a mighty 300cc single engine, all brought to you by BMW, and now in the stable of **Scott Mastrocinque** at Brattin Motors. The curious observers are **Sam Ballante**, **John Ciccone**, and **Phil Beck**.

KING...

Check that boot. Seven weeks after he broke his leg riding the mighty K75C, **Ron Spicer** was out on the Triumph Sprint.
